

## STREET SOCIAL SERVICES

Street social services is an initiative taken by us (the students of Malla Reddy Engineering College) to work and contribute our share to the society, the agenda is mainly to help those in need of basic essential commodities at these very tough times, it's only fair that everyone in the country deserve to not suffer the wrath of hunger especially when you are unnoticed, lying around the streets because you don't have place to live in. We felt it's our responsibility to do something about it; we came up with some exciting events within the funds and budget we have, in the span of 1 year we were able to feed 600 people and distribute groceries to 100 families, distributed blankets to 140 people who are sleeping beside the roads, conducted vaccination drive in MALLA REDDY ENGINEERING COLLEGE, 900 people (students and faculties) are benefited from this event and also conducted different competitions in college to encourage the talent of students.
